

**Automatic Guided Cart (AGC) Friction Conveyor**

**Beichert Standard**

**Description**

- Ideal for accumulating assembly carts for manual operations
- Carts are accumulated by the conveyor and then latch by the AGC to be taken to the assembly areas.
- Carts are transported using spring loaded drive wheels.
- Engineered to handle weights of up to 2500kg or more depending on the application.
- Variable conveyor widths up to 2400mm or more depending on the application.
- Each conveyor system consists of two main drive gear motors, two cart hold back drives, cart funnel guides at each end, perimeter guarding, automatic guided carts (Qty to suit), and Assembly carts (QTY to suit).
- Available accessories including cart tooling, floor track, installation, and integration.,
